

# CONFIGURING YOUR NEW COMPUTER

Your new computer is set up and ready to go!

Our goal is to mimic your old computer as much as possible, but unfortunately, it will never be an exact clone. Here are some things you might need to adjust yourself to replicate your old computer.

## What Do You Move?

- **Login credentials:** You'll need to log in to any accounts you were previously logged into (Microsoft 365, password managers, other line-of-business software, etc.)
- **Windows preferences and accessibility settings:** Dark mode, text size, brightness, notification settings, etc.)
- **Internet browser preferences:** Dark mode, text size, notification settings
- **Desktop preferences:** Wallpaper, icons, Windows theme, positioning of Start bar
- **Downloads or one-off programs:** Grammarly, Office add-ins or extensions, other line-of-business apps, etc.

## What Does HT Move?

Hungerford Technologies will migrate from the old computer to the new computer:

- Windows profile (documents, music, pictures, videos)
- Internet browser favorites (Edge, Chrome and Firefox)
- Printers (both network and local)
- Line-of-business applications installed
- Microsoft Outlook profiles and signatures

## Contact Hungerford Technologies

If you have any questions regarding your new computer, start a chat using the HT Support App, email us at [support@hungerford.tech](mailto:support@hungerford.tech) or call (616) 949-4020.
